

Will MYCAPSSA data in Symphony or IQVIA be a reliable source of prescription information?

Chiasma is distributing MYCAPSSA through one specialty pharmacy at this time, and for competitive reasons, it is not permitted to share product sales/utilization data with any third-party data reporting provider, such as IQVIA or Symphony. Given this, we do not believe MYCAPSSA data reported by third-party sources would be reliable and should not be relied on to make any conclusions of our launch progress.
